Address
601/240 Barkly Street,
Footscray

Education

2023
Bachelor of Information Technology - Professional Practice
Federation University - Ballarat

Expertise

- Frontend Development /w React, VueJS or Angular
- Backend Development /w ExpressJS (NodeJS)
- Plenty of experience with Java, Python, C# and other languages
- Design w/ Figma & Adobe XD

Language

English

Experience

2022
IBM Ballrat
Internship

Worked in an internship as a part of my university degree for a couple years. Mostly served as a helping hand in a lot of different in-house internal web-based software. Helped in both a backend role (NodeJS & Java) and frontend (Angular & React). Had a lot of involvement with automation, and served as a team-leader / lead-developer in a few small intern teams.

2022 - 2023
Tech Mahindra, Melbourne
Technical Support

Served as Technical Support for Telstra customers regarding both Internet Issues and Mobile issues.

2020
Self Employed
Freelance Tutoring & Coding

Helped other students with programming and course related content. Paid to tutor or help with programming related issues (Mostly Java, Python or Javascript). Was mostly done online or in-person with university students.

Also did some freelancing for people that required mod/addon work for specific video games.
